PRAVEEN SHARRMA

Software Engineer

SUMMARY

Creative, detail-oriented, software engineer with a deep interest in AI. Proven track record of creating and implementing successful front and back end web applications. Looking to bring my skills to a tech company with global reach.

WORK EXPERIENCE

Software Engineer at 100Devs, Los Angeles, CA

October 2021 — Present

- Collaborated with a team of developers to build modern and responsive web applications using best practices

- Built semantically structured full stack web applications

- Applied agile methodologies like SCRUM for project management

Other Projects:
- **IMAGINIFY AI** (fullstack **AI image SaaS** platform), LAMA AI (Full-Stack **ChatGPT AI chatbot app**), Zentree (**Award-winning** animated website), **Apple** iphone15 pro website, My amazing portfolio

Recent Projects: MY PORTFOLIO

GreenEdge Co. (Fullstack Web App)
- Built a **full-stack e-commerce app** with **React**, **Node.js**, and **MongoDB**, ensuring seamless functionality across both frontend and backend.
- Integrated **Stripe payments** for secure transactions, using **React Hook Form** for smooth user input handling and **Tailwind CSS** for responsive design.
- Implemented **JWT-based authentication** and **Bcrypt** for secure user login and session management.
- Optimized user experience with **Zod** for data validation and **ShadCN** for modern UI components.

SahandEstate (Fullstack Web App)

- Developed a comprehensive **MERN real estate platform** for property listings, use management, and transactions, utilizing **React**, **Node.js**, **MongoDB** and **Firebase** for secure and efficient operations.
- Integrated **JWT, Firebase,** and **Google OAuth** for seamless and secure user authentication, ensuring reliable access control for all users.
- **Advanced Search & Filtering**: Implemented a cutting-edge search engine with customizable filters for property type, price range, location, and amenities, enabling users to find their ideal properties quickly and efficiently.
- **User-Friendly Features**: Implemented features like **profile management**, **listing editing** and real-time updates to enhance the user experience.

OrbitJobs Inc. (Fullstack Web App)

- **Designed and Developed a Dynamic Job Board Platform** using **Next.js**, **TypeScript**, and **Node.js**, enabling seamless job posting, application management, and real-time interaction between job seekers and employers.
- Leveraged **MongoDB** and **Mongoose** to implement efficient data models and CRUD operations, ensuring a high-performance and scalable solution with optimized database queries.
- **Delivered an Intuitive and Responsive UI** with mobile-friendly interface using **Tailwind CSS**, emphasizing accessibility and user experience, with features like real-time updates, profile management, and contact forms.
